

SOLID STATE

Ending Bible - Version 1.0

Frozen ending taxonomy, awareness philosophy, family-coded IDs, and initial canonical ending set.

1. Core principle

A final transformation answers what the protagonist's body became. An ending answers what her life made that transformation mean. All canonical v1 endings involve an irreversible or effectively irreversible Permanent Form; endings are not scored as victory or failure.

2. Stable family-coded IDs

Ending IDs use `END-{FAMILY}-{NNN}`. The prefix encodes only the stable primary narrative family. Secondary routes remain metadata. IDs never encode age, species, material, rarity, weight, or route stage. Future expansion families may register new codes without renumbering existing content.

Code	Family
COR	Corporate
MUS	Museum / Art
MED	Medical / Preservation
LEG	Legal
FIN	Finance
FAM	Family
CIV	Civic / Political
REL	Religious / Ceremonial
ARC	Architectural / Industrial
ACA	Academic / Research
TMP	Temporal
ANO	Anomalous / Hidden

3. Ending axes

Ending Records may contain Primary Material, Form, Awareness State, Integrity, Legal Status, Ownership, Autonomy, Conversion Consent, Location, Durability/Maintenance, Social Meaning, Ending Age, and optional Apparent Age. Material and Form are separate.

4. Awareness State

Ordinary Permanent Forms do not remain consciously aware by default. Ordinary solid-material endings default to Unconscious; ordinary temporal fixation defaults to Suspended. Intermittent, Continuous, and Displaced awareness require explicit authored support. Uncertain is reserved for narratively meaningful uncertainty.

5. Independent axes

Consent describes what she wanted before/during conversion. Awareness describes subjective experience afterward. Autonomy describes who can make decisions concerning the Permanent Form afterward. These must remain independent from ownership and legal status.

6. Material continuity

Final Primary Material normally equals the existing Material Commitment. A social route cannot overwrite committed material. Material-specific Ending IDs exist only when material itself changes the narrative meaning.

7. Afterform

After the final annual event, normal yearly simulation ends. A short 2-6 entry Afterform epilogue may describe later placement, ownership, restoration, reinterpretation, or institutional changes. It is authored epilogue selection, not a second simulator.

8. Certificate of Permanent Status

The final screen should present dry administrative fields such as Age at Permanent Form, Primary Material, Form, Awareness State, Legal Classification, Recognized Owner, Autonomy, Consent, Integrity, Location, Social Function, and Ending. Unknown and Disputed are valid values.

9. Extensibility

The core taxonomy is deliberately open-ended. Future faction packs, institutions, species expansions, and special chains may register new family codes and route tags. DnD-alignment-inspired factions are deferred to a later expansion iteration rather than included in v1.

10. Initial 24 Canonical Endings

END-COR-001 - Employee of the Century

The protagonist becomes a permanent corporate display while remaining officially associated with the company.

Primary family: COR **Routes:** Corporate

Materials: flexible

Forms: statue; mannequin; preserved humanoid

Awareness: Unconscious

Legal: Corporate Asset or Contractual Post-Mobile Citizen

Ownership: Corporation or contractual self-ownership

Autonomy: Contractual or Restricted

Consent: route-derived

Location: corporate headquarters

Social meaning: employee; memorial; brand asset

Discovery class: common **Hidden:** false

Design note: HR insists this counts as retention.

END-COR-002 - Benefits Package

Employer-sponsored preservation permanently stabilizes the protagonist; the procedure succeeds according to the contract.

Primary family: COR **Routes:** Corporate; Medical

Materials: synthetic; temporal; crystal; compatible other

Forms: preserved humanoid; mannequin; temporal still-frame

Awareness: Unconscious; Suspended if temporal

Legal: Contractual Post-Mobile Citizen

Ownership: Self or Corporation depending event

Autonomy: Contractual

Consent: route-derived

Location: corporate facility; hospital; headquarters

Social meaning: employee; insured beneficiary

Discovery class: common **Hidden:** false

Design note: Success is defined contractually.

END-MUS-001 - Permanent Collection

The protagonist becomes part of a recognized museum collection.

Primary family: MUS **Routes:** Museum

Materials: wood; marble; crystal; porcelain; glass; synthetic; compatible other

Forms: statue; preserved figure; mannequin

Awareness: Unconscious

Legal: Cultural Property or Post-Mobile Citizen

Ownership: Museum; Self with museum custody; Disputed

Autonomy: Restricted or Represented

Consent: route-derived

Location: museum

Social meaning: artwork; cultural property; citizen

Discovery class: common **Hidden:** false

Design note: Prestige does not imply autonomy.

END-MUS-002 - Excellent Condition, Minor Wear

The protagonist survives indefinitely through regular conservation work and becomes progressively maintained or modified.

Primary family: MUS **Routes:** Museum; Restoration

Materials: wood; stone; ceramic; synthetic; mixed

Forms: statue; preserved figure; installation

Awareness: Unconscious

Legal: Cultural Property or Post-Mobile Citizen

Ownership: Museum or Self with custody

Autonomy: Restricted or Represented

Consent: route-derived

Location: museum; conservation facility

Social meaning: artwork; conservation subject

Discovery class: uncommon **Hidden:** false

Design note: Condition-report terminology becomes the joke.

END-MUS-003 - Crystal Archivist

The protagonist's crystal structure preserves information unusually well, making the Permanent Form both person-history and archive.

Primary family: MUS **Routes:** Museum; Academic

Materials: crystal; gemstone

Forms: preserved humanoid; archive object

Awareness: Uncertain

Legal: Cultural Property; Research Subject; Disputed

Ownership: Museum; University; Self

Autonomy: Represented or Restricted

Consent: route-derived

Location: museum; archive; university

Social meaning: archive; research object; cultural artifact

Discovery class: rare **Hidden:** false

Design note: Information preservation does not imply conscious experience.

END-LEG-001 - Self-Owned Permanent Citizen

The protagonist retains recognized ownership and substantial legal control over her Permanent Form.

Primary family: LEG **Routes:** Legal

Materials: flexible

Forms: flexible

Awareness: Unconscious

Legal: Protected Permanent Citizen

Ownership: Self

Autonomy: Represented or Independent by directive

Consent: route-derived

Location: route-derived

Social meaning: citizen

Discovery class: uncommon **Hidden:** false

Design note: Favorable legal outcome; still permanent.

END-LEG-002 - Fixture Attached to Land

The law determines that the protagonist has become part of real property; ownership follows the building or land.

Primary family: LEG **Routes:** Legal; Architectural

Materials: stone; concrete; metal; mixed

Forms: architectural component

Awareness: Unconscious

Legal: Fixture Attached to Land

Ownership: Property Owner

Autonomy: None or Represented

Consent: route-derived

Location: building; infrastructure

Social meaning: fixture; infrastructure

Discovery class: uncommon **Hidden:** false

Design note: Rare awareness overrides can make this substantially darker.

END-FIN-001 - Collateral Realized

A creditor's claim against the protagonist's projected Permanent Form becomes enforceable.

Primary family: FIN **Routes:** Finance

Materials: precious metal; gemstone; valuable stone; compatible other

Forms: statue; preserved humanoid; asset object

Awareness: Unconscious

Legal: Asset or Limited Person

Ownership: Creditor

Autonomy: None or Restricted

Consent: route-derived

Location: creditor custody; auction storage; display

Social meaning: collateral; asset

Discovery class: uncommon **Hidden:** false

Design note: The valuation was accurate.

END-FIN-002 - Paid in Full

A debt-for-preservation arrangement eliminates the protagonist's financial obligations by creating a different sort of obligation.

Primary family: FIN **Routes:** Finance; Medical; Corporate

Materials: flexible

Forms: flexible

Awareness: Unconscious

Legal: Asset or Contractual Post-Mobile Citizen

Ownership: Creditor or Corporation

Autonomy: Contractual or None

Consent: route-derived

Location: route-derived

Social meaning: settlement asset; preserved debtor

Discovery class: common **Hidden:** false

Design note: Outstanding Debt: 0.

END-FAM-001 - Family Heirloom

The protagonist remains physically within the family across generations.

Primary family: FAM **Routes:** Family; Inheritance

Materials: wood; porcelain; stone; metal; crystal

Forms: statue; figurine; preserved figure

Awareness: Unconscious

Legal: Estate; Family Property; Post-Mobile Citizen

Ownership: Family; Self via trust; Shared

Autonomy: Represented or Restricted

Consent: route-derived

Location: family home

Social meaning: heirloom; family presence

Discovery class: common **Hidden:** false

Design note: Tone can range from affectionate to possessive.

END-FAM-002 - The Garden Figure

The protagonist's permanent placement is a family garden or courtyard.

Primary family: FAM **Routes:** Family; Housing

Materials: stone; ceramic; metal; wood

Forms: garden statue; preserved figure

Awareness: Unconscious

Legal: Family Property or Post-Mobile Citizen

Ownership: Family; Self via directive

Autonomy: Represented or Restricted

Consent: route-derived

Location: family garden; courtyard

Social meaning: household presence; memorial

Discovery class: common **Hidden:** false

Design note: May be loved, ignored, or seasonally decorated.

END-CIV-001 - Living Memorial

The protagonist becomes an official civic memorial; the word 'living' survives mainly in administrative language.

Primary family: CIV **Routes:** Civic; Political

Materials: marble; bronze; stone; crystal

Forms: public monument

Awareness: Unconscious

Legal: Protected Permanent Citizen or Municipal Property

Ownership: Government or Self under public custody

Autonomy: Restricted or Represented

Consent: route-derived

Location: public square; government site

Social meaning: memorial; civic symbol

Discovery class: uncommon **Hidden:** false

Design note: Rare awareness variants are explicit overrides, not default.

END-CIV-002 - Politically Neutral Landmark

After political circumstances change, officials retain the protagonist while removing nearly all information about what she originally represented.

Primary family: CIV **Routes:** Civic; Legal

Materials: monument-compatible flexible

Forms: monument; landmark

Awareness: Unconscious

Legal: Municipal Property or Cultural Property

Ownership: Government

Autonomy: None or Represented

Consent: route-derived

Location: public site

Social meaning: landmark

Discovery class: rare **Hidden:** false

Design note: Historical context is administratively simplified.

END-ARC-001 - Structural Support

The protagonist becomes a literal part of infrastructure or architecture.

Primary family: ARC **Routes:** Architectural; Industrial

Materials: concrete; stone; metal; composite

Forms: column; support; facade element; structural figure

Awareness: Unconscious

Legal: Fixture Attached to Land or Corporate/Municipal Asset

Ownership: Property Owner; Corporation; Government

Autonomy: None

Consent: route-derived

Location: building; infrastructure

Social meaning: infrastructure; employee

Discovery class: uncommon **Hidden:** false

Design note: Employment may technically remain active.

END-ACA-001 - Tenure

The protagonist acquires permanent academic status shortly before acquiring permanent physical status.

Primary family: ACA **Routes:** Academic

Materials: stone; bronze; crystal; wood; compatible other

Forms: statue; memorial; preserved humanoid

Awareness: Unconscious

Legal: Post-Mobile Citizen or University Property

Ownership: Self; University; Disputed

Autonomy: Represented or Restricted

Consent: route-derived

Location: university campus

Social meaning: academic; memorial

Discovery class: uncommon **Hidden:** false

Design note: The institution finally guarantees her position.

END-ACA-002 - Peer-Reviewed Permanence

The protagonist becomes the most convincing evidence in her own research.

Primary family: ACA **Routes:** Academic; Medical; Research

Materials: variable

Forms: research specimen; preserved humanoid; installation

Awareness: Unconscious or Uncertain

Legal: Research Subject; Post-Mobile Citizen; Disputed

Ownership: University; Institute; Self

Autonomy: Restricted or Represented

Consent: route-derived

Location: research institute; university

Social meaning: research evidence; academic artifact

Discovery class: rare **Hidden:** false

Design note: Her paper may continue receiving citations.

END-MED-001 - Last Version of You

The protagonist undergoes deliberate mid-life preservation marketed as locking in her best self.

Primary family: MED **Routes:** Medical; Commercial Preservation; Mid-Life

Materials: flexible; often prestige or synthetic

Forms: preserved humanoid; statue; mannequin

Awareness: Unconscious

Legal: Post-Mobile Citizen or Contractual Asset

Ownership: Self; Provider under contract

Autonomy: Represented or Contractual

Consent: Enthusiastic; Accepting; Resigned; Ambiguous

Location: private residence; preservation facility; display

Social meaning: preserved self; consumer product

Discovery class: uncommon **Hidden:** false

Design note: Mid-life crisis industrialized.

END-MED-002 - Cheap Immortality

Permanent preservation works at remarkably low cost; the expense reappears in rights, placement, maintenance, or aesthetics.

Primary family: MED **Routes:** Medical; Finance

Materials: synthetic; temporal; low-cost stone/ceramic; compatible other

Forms: flexible

Awareness: Unconscious; Suspended if temporal

Legal: Contractual Post-Mobile Citizen or Asset

Ownership: route-derived

Autonomy: Contractual or Restricted

Consent: route-derived

Location: route-derived

Social meaning: preserved patient; low-cost contract

Discovery class: rare **Hidden:** false

Design note: T1026 synergy. Synthetic is not inherently cheap.

END-REL-001 - Sacred Object, Pending Appeal

A religious institution recognizes the protagonist as sacred property while civil authorities dispute whether she remains a legal person.

Primary family: REL **Routes:** Religious; Legal

Materials: wood; marble; crystal; obsidian; ceremonial metal

Forms: statue; relic; ceremonial object

Awareness: Unconscious

Legal: Legally Disputed

Ownership: Religious Institution; Self; Disputed

Autonomy: Restricted or Represented

Consent: route-derived

Location: religious site

Social meaning: sacred object; citizen; relic

Discovery class: rare **Hidden:** false

Design note: Sacred and litigated.

END-TMP-001 - Time Served

The protagonist enters indefinite temporal fixation; no subjective time passes while outside obligations continue.

Primary family: TMP **Routes:** Temporal; Legal; Finance

Materials: temporal

Forms: temporal still-frame

Awareness: Suspended

Legal: Post-Mobile Citizen; Disputed; Asset

Ownership: Self; institution; disputed

Autonomy: Contractual or Represented

Consent: route-derived

Location: temporal facility; archive; route-derived

Social meaning: preserved person; legal anomaly

Discovery class: rare **Hidden:** false

Design note: Elapsed legal time and experienced time diverge.

END-FIN-003 - No Longer Depreciating

Conversion causes the protagonist's assessed financial value to stabilize or increase.

Primary family: FIN **Routes:** Finance; Museum; Corporate

Materials: durable or valuable

Forms: asset object; statue; preserved humanoid

Awareness: Unconscious

Legal: Asset; Cultural Property; Corporate Asset

Ownership: route-derived

Autonomy: Restricted or None

Consent: route-derived

Location: route-derived

Social meaning: asset; investment

Discovery class: rare **Hidden:** false

Design note: An accountant calls this an improvement.

END-MUS-004 - Mixed Media

The protagonist intentionally or accidentally becomes a recognized multi-material work.

Primary family: MUS **Routes:** Museum; Restoration; Anomalous

Materials: mixed only

Forms: statue; installation; preserved humanoid

Awareness: Unconscious

Legal: Cultural Property or Post-Mobile Citizen

Ownership: Museum; Self; Disputed

Autonomy: Restricted or Represented

Consent: route-derived

Location: museum; gallery; conservation facility

Social meaning: artwork; conservation subject

Discovery class: rare **Hidden:** false

Design note: Requires explicit authored mixed-material transition.

END-ANO-001 - Object Permanence

The protagonist remains subjectively herself despite substantial later alteration to the Permanent Form.

Primary family: ANO **Routes:** Anomalous

Materials: flexible

Forms: flexible

Awareness: Continuous or Intermittent

Legal: route-derived

Ownership: route-derived

Autonomy: route-derived

Consent: route-derived

Location: route-derived

Social meaning: anomalous continuous identity

Discovery class: hidden **Hidden:** true

Design note: Requires T1028 or explicit equivalent. Not invulnerability.

END-ANO-002 - Soul Cannot Harden

The body reaches permanent solidification while consciousness does not remain bound to it.

Primary family: ANO **Routes:** Anomalous; Religious; Reincarnation

Materials: flexible

Forms: flexible

Awareness: Displaced

Legal: route-derived

Ownership: route-derived

Autonomy: route-derived

Consent: route-derived

Location: route-derived

Social meaning: permanent body; displaced self

Discovery class: hidden **Hidden:** true

Design note: Requires T1029 or explicit equivalent.

11. Validation and Handoff

- Validate family-coded IDs and registered family codes.
- Reject material conflicts with existing Material Commitment.
- Reject canonical endings without Permanent Form.
- Reject Continuous, Intermittent, or Displaced awareness unless explicitly authorized by the ending/event/talent.
- Reject canonical under-18 endings in v1.
- Keep ending meaning and prose under ChatGPT ownership; coding agents implement schema, deterministic resolution, validation, discovery storage, and UI.
